Miscellaneous.

GEORGE W. JONES, Assistant State Superintendent of Public Instruction, has resigned, having been elected grand secretary of the Odd Fellows. The headquarters of the secretary will be removed from Leavenworth to Topeka.

SECRETARY MOHLER, of the State Board of Agriculture, has received reports from every county in the State showing that 27,940,401 bushels of winter wheat and 860,813 bushels of spring wheat were harvested in Kansas this year. Saline is the banner county, with 2,148,256 bushels of winter wheat. Over 2,000,000 acres of winter wheat were sown in the State this fall.

Born constitutional amendments were defeated at the late election. The amendment increasing the number of Supreme Court judges was defeated by about 30,000, and that extending the sessions of the Legislature by a still front makes a serviceable blower; but

larger vote. Miss Lillie Insley, daughter of was recently poisoned by eating candy containing a noxious drug. After eating the candy she became violently ill, but prompt medical attendance saved

E. B. DENUNE, a farmer and an old settler of Sher:dan County, committed | made from them. suicide by cutting his throat with a razor the other day. He arose from the dinner table a few minutes previous to the other members of the family and went to the stable, where he was found dead. He was 60 years old and leaves a wife, two sons and three daughters. Financial embarrassment supposed to

be the cause. MRS. JOHN SWANSEN, of Topeka, who for some time had been a confirmed hypochondriac, concluded that she soon must die, and in order that she might not go without her five-year-old daughter the mother the other day administered chloroform to her child with fatal effect, the little one dying while the husband and father was absent at his work in the Santa Fe shops. The unfortunate mother, who is regarded as Insane, will be sent to an asylum.

Soon after dark the other night Charles R. Russell was run over at the Santa Fe crossing at Emporia by a switch engine and his head cut clean off from his body. Both his legs were also cut off. He was single and about 35

A FREIGHT train, on the Northwestern road, broke through a bridge across the Kaw river at Kansas City, Kan., early the other morning. The train, which consisted of an engine, car load of hogs, a car of corn, one of milling machinery and a caboose, went to the bottom of the river, carrying the engineer, fireman, conductor, a stockman and a number of other persons. A colored man, who had jumped on to ride over the river to his work, and Fireman Allen were killed and a number of others had narrow escapes. The loss to the railroad company was estimated at \$100,000.

THE official vote in the several Congressional districts had not been announced on the 19th except the Second and Fourth districts. The First district, except one county, gave Broderick, 12,735; Moonlight, 12,042; Clark, 5,929; Woodhull, 39. The Second district, complete, gave Funston 17,713; Allen, 12,273; Chapman, 10,130; King, 906. The Third district, except one county, gave Clover 20,217, and Perkins 16,764. The Fourth district, completed, gave Otis 24,993 and Kelley 19, 994. The Fifth district, except two counties, gave Davis 15,314; Phillips, 11,066; Warner, 3,042. The Sixth district, except two counties, gave Baker 17,995; McNall, 10,471; Scott, 224. The Seventh district, except Sedgwick County, gave Simpson 27,244 and Hallowell 21, 375,

Ar the late election the Legislative amendment to the constitution was defeated by near 90,000 majority and the OATS-Western mixed ... FORE...... II IS # II IS judicial amendment by fully 48,000.

OLD NEWSPAPERS.

Twenty-five Ways in Which They May Be Utilized to Advantage

Along with a last years' birds' nest do men rate a back-number newspaper, yet civilization finds more (and more reputable) uses for the latter than a Chinese cook for the former. Almost every one has heard that a newspaper spread between the bed blankets affords more protection from cold than an additional blanket, and without adding the uncomfortable weight of the latter. But I have seen a bit of domestic economy practiced by a tramp, so clever as to make this one pale. He wrapped his feet in newspapers, of which he had plenty, in lieu of stockings, of which he had none. "Will that keep your feet warm?" I asked. "Better than all-wool hose," he answered-and truthfully. As a chest-protector, a folded paper under the vest will ward off pneumonia.

But the old newspaper is just as good a protection against heat Set an icepitcher on one and draw up and tie securely over the top. In the morning, one will find the ice unmelted. A piscatorial friend always brings his trout home wrapped in plenty of paper, and they look fresher than cold storage can

Many a housewife knows how to make comfortable couch pillows and porch cushions by cutting papers in long, narrow strips and rolling them, the fashion of making lamplighters. Trimmings from a bookbindery are easier to use.

When celery is large enough to bleach, instead of banking it up with earth, wrap each bunch in half a dozen thicknesses of old paper, well tied on, from root to crown. It is equally good, a gardener tells me, for mulching strawberries, spread between the rows and weighted with stones.

A few cents' worth of back numbers from a newspaper office are equal to dollars' worth of the best moth-proof (?) ever sold, though a little more troublesome to lay smoothly. As a lamplighter it saves matches, and for wadding ironholders is a better non-conductor than cotton. It makes the shelves in the cellar and wash-house look neat, and wrapped around the glass fruit-jars excludes the light, which is as hurtful as the air to some fruits. Patterns cut in newspaper are no new thing, but it may not be generally known that a cheap and durable door-mat, equal to cocoa, can be made by having files of old papers cut lengthwise into sections three inches wide, and packing these together on edge in a frame of wood. Where soft or bard coal is burned in an open grate, a dampened newspaper pinned over the never use a dry paper.

We have said nothing about the time-Captain H. M. Insley, of Leavenworth, honored scrap-book; but for amusement for the children on a rainy afternoon, nothing costs less or is more relished than cutting the advertising cuts and display letters from old newspapers. Then such geometrical and other figures as are cut in the kindergartens may be

For cleaning lamp chimneys there is nothing half so good, or for packing dishes or glassware. The mice know the value of finely cut paper so well for bedding that it would be strange if some clever Yankee had not invented a machine for shredding it for use in stables, as is done in some cities.

The hospitals and prisons are always glad to get uncut second-hand papers, especially religious and story papers. Such as have to be cut or torn are worth half a cent a pound for waste paper, and if there are any so soiled or unfit to keep that they must be burned, pack them into a paper tube, with turpentine and resin, and saw in sections for kindling. -J. F. Cowan, in Good Housekeeping.

-In the French Jardin des Plantes is a peculiar South American lizard, resemblng a "flying toad," which coils itself up like a hedgehog when disturbed.

A DOCTOR'S CONFESSION.

He Doesn't Take Much Medicine and Advises the Reporter Not To.

"Humbug? Of course it is. The so-called science of medicine is a humbug and has been from the time of Hippocrates to the resent. Why the biggest crank in the Indian tribes is the medicine man."

"Very frank was the admission, especially so when it came from one of the biggest young physicians of the city, one whose practice is among the thousands, though he has been graduated but a few years," says the Buffalo Courier. "Very cozy was his office too, with its cheerful grate fire, its Queen Anne furniture, and its many lounges and easy-chairs. He stirred the fire lazlly, lighted a fresh cigar, and went on."

"Take the prescriptions laid down in the books and what do you find! Poisons mainly, and nauseating stuffs that would make a healthy man an invalid. Why in the world science should go to poisons for its remedies I cannot tell, nor can I find any one who can."

"How does a doctor know the effect of his medicine!" he asked. "He calls, prescribes, and goes away. The only way to judge would be to stand over the bed and watch the patient. This cannot be done. So really, I don't know how he is to tell what good or hurt he does. Sometime ago, you remember, the Boston Globe sent out a reporter with a stated set of symptoms. He went to eleven prominent physicians and brought back eleven different prescriptions.

This just shows how much science there is

in medicine." There are local diseases of various characters for which nature provides positive remedies. They may not be included in the regular physician's list, perhaps, because of their simplicity, but the evidence of their curative power is beyond dispute. Kidney disease is cured by Warner's Safe Cure, a strictly herbal remedy. Thousands of persons, every year, write as does H J. Gardiner, of Pontiac, R. I., August 7, 1890:

"A few years ago I suffered more than probably ever will be known outside of myself, with kidney and liver complaint It is the old story-I visited doctor after doctor, but to no avail. I was at Newport, and Dr. Blackman recommended Warner's Safe Cure. 1 commenced the use of it, and found relief immediately. Altogether I took three bottles, and I truthfully state that it

-A Good Thing for Tommy .- "Well, Tommy, I'm gl 'd to see you are getting along so much better at school," said that young man's uncle. "You have gone a whole week without being whipped, haven't you?" "Yes, sir; teacher's got a lame shoulder."-Washington Star.

A Tenacious Clutch

Is that of dyspepsia. Few remedies do more than palliate this obstinate complaint. Try Hostetter's Stomach Bitters, however, and you will find that it is conquerable, along with its symptoms, heartburn, flatulence, nervousness, and loss of flesh and vigor. Billiousness and constipation frequently accompany it. These, besides malarial, rheumatic and kidney complaints, are also subduable with the Bitters.

Beware of the under-tow-when you see a blonde young woman in a black wig.-Texas Siftings.

A Sore THROAT OR COUGH, if suffered to progress, often results in an incurable throat or lung trouble. "Brown's Bronchial Troches" give instant relief.

"Is THIS old latch key a relic of your randfather's days!" "No; of his nights." -Indianapolis Journal Must not be confounded with common ca thartic or purgative piles. Carter's Little Liv-

er Pills are entirely unlike them in every re-

spect. One trial will prove their superiority. WHEN Chicago is asked how she is feeling nowadays she answers: "Fairish, thanks."

Doctors prescribe Dr. Bull's Worm Destroyers, because children like them and they never fail.

Signs of autumn-"Oyster stews;" "Hot Frankfurts;" "Rousted Chestnuts."-Bos-

No Option in Piso's Cure for Consumption. Cures where other remedies fail, 25c.

The gas-meter must make both ends mete our gas bills run up so rapidly .- Puck.

Talking of patent medicines -you know the old prejudice. And the doctors-some of them are between you and us. They would like you to think that what's cured thousands won't cure you. You'd believe in patent medicines if they didn't profess to cure everything - and so, between the experiments of doctors, and the experiments of patent because there's money in the "stuff," you lose faith in every-thing. thing.

And, you can't always tell the prescription that cures by what you read in the papers. So, perhaps, there's no better way to sell a remedy, than to tell the truth about it, and take the risk of its doing just what it professes to do.

That's what the World's Dispensary Medical Association, of Buffalo, N. Y., does with

Dr. Pierce's Golden Medical Discovery, Favorite Prescription, Pleasant Pellets, and

Dr. Sage's Catarrh Remedy. If they don't do what their makers say they'll do - you get your money back.

What folly it would be to cut grass with a pair of scissors! Yet people do equally silly things every day. Modern progress has grown up from the hooked sickle to the swinging scythe and thence to the lawn mower. So don't use scissors!

But do you use SAPOLIO? If you don't you are as much behind the age as if you cut grass with a dinner knife. Once there were no soaps. Then one soap served all purposes. Now the sensible folks use one soap in the toilet, another in the tub, one soap in the stables, and SAPOLIO for all scouring and house-cleaning.
